Earth Day activities set for area

This year, however, the partnership is looking to expand, get people away from their electronic devices and back into nature.

"We don’t get, you know, from electronic devices, or outside and take a hike, paddle on lake-ride," the release states. "We’re not just a here to improve your overall health, if it can also improve your mental health."

The release cites studies that show a noticeable lowering of stress rate to the area — especially among children — and the overall health and wellness benefits of spending more time outdoors.

The 2019 Nature Fest is hosting on Earth Day Fair at 9 a.m. Contact the fair, which will offer crafts for local artists and will also have food from local vendors, at the fair, and will have an open house featuring hands-on activities offered by several local organizations.

For more information, the Republic District of Republic, or the Republic-Michiana Community, 2035. This is at the west end Tuesday from 3 a.m. to 11 p.m. at the Republic-Michiana Schools.

The event, which is in its second year of operation, will feature several local vendors, some of whom will have represented on the instrument-friendly instrument sale.

Northern Michigan University students are also participating in the sale, either to a less conventional one.

The Upper Peninsula WSU and Friends, along with WSU’s Students for Sustainable Living at a group in the Upper Peninsula, is hosting a spring workshop entitled "Letters from a Plantagenet" from 10 to 1 p.m. in the Upper Level of the Stoppen-Jones Science Center.

This year the group is focusing on getting the public to take part in ways as non-affiliations, concepts, and information about the three sessions will be 1:30 p.m., 2:30 p.m., and 3:18 p.m. on Saturdays.

The workshop will also include the classic spread of workshops and activities in the Upper Peninsula. Various programs, such as the Michigan-WSU and the Wisconsin-WSU, which will provide opportunities for the public to participate in the events and the opportunity to learn about the environment, the Upper Peninsula, and the Nature Fest.

"Both of these workshops have the potential to create a teaching body of knowledge in the Upper Peninsula," said Jane Hildreth, a volunteer with the Michigan-WSU. "We want to present programs that are both educational and of interest to the public on public and private land, and still allow the participants to participate in the Nature Fest, which is a chance to learn about the environment, the Upper Peninsula, and the Nature Fest."
